

## Indian Institute of Technology

### ACS Seminars at IIT Mandi

# Advances in Multifunctional Nanomaterials on 5th-6th May, 2022

May 11, 2022

The Indian Institute of Technology Mandi aims to provide a vibrant platform for researchers looking to engage with globally distinguished names in the field of chemistry and interfacing areas of science. With this aim, IIT Mandi organized ACS Seminars on 'Advances in Multifunctional Nanomaterials' between 05th and 06th May, 2022 in collaboration with the

---

American Chemical Society. This two-day virtual event featured ten national and international speakers who discussed their research under this theme and shared the future research directions. The event witnessed enthusiastic participation from 976 registrants [500+ institutes, 43 countries] with 475 attendees on the first day and 319 attendees on the second day.
