

IIT Mandi Announces Short-Term Courses for Winter Semester Break 2024

Mandi, Himachal Pradesh – IIT Mandi is pleased to announce an exciting series of short-term courses designed to enhance practical knowledge and skills across a variety of advanced topics. Scheduled during the winter semester break, these courses will take place at the IIT Mandi campus starting the second week of December 2024.

The following courses will be offered:

- 1. Digital Foundations: Mastering OS, Networks & IoT**
Instructors: Dr. Sreelakshmi Manjunath, Dr. Padmanabhan Rajan, and Dr. Siddhartha Sarma
- 2. Mastering 3D Printing: From Basics to Advanced Techniques**
Instructor: Dr. Prateek Saxena
- 3. Hands-on Training on High-Performance Scientific Computing (HPSC)**
Instructors: Dr. Gaurav Bhutani and Dr. Shashwat Bhattacharya
- 4. Hands on IoT- Workshop**
Instructors: Dr. Rahul Vaish

These courses provide a unique opportunity for participants to gain hands-on experience using IIT Mandi's state-of-the-art lab facilities. The practical approach will allow attendees to deepen their expertise in each subject, making this an invaluable experience for students, educators, and professionals.

We encourage early registration as seats are limited. The registration link is available on our website: <https://cce.iitmandi.ac.in>.
